## RELEVANT PROJECTS

---

- **Multiple Desktop Sharing Application**  
This project was a part of my Final Year Project for Undergraduate Program. The project was built using Java and Spring Technology to broadcast the Admin computer screen to all the connected Non-Admin computers and fetch the screens from them as a monitoring function on the Admin screen.
- **Personal Website**  
This project catered as an online resume for me. It used HTML, CSS, JavaScript, Bootstrap and JQuery. It is currently hosted on Github under the link – [www.prtkgoswami.github.io](http://www.prtkgoswami.github.io)
- **Personal Repository**  
This project served as an online portfolio for my Web Development Projects. It uses HTML, CSS and JavaScript. It is currently hosted on Github under the link – [www.prtkgoswami.github.io/repo](http://www.prtkgoswami.github.io/repo)
